**Draft Amendment 2
to
AIS 160 Safety Requirements for Construction Equipment Vehicle(s)**

1 Part 2, Page No. 3/6, Clause No. 3.1

Substitute following text for existing text:

Electro Magnetic Compatibility (EMC) shall be as per IS / ISO 13766 (Part 1):2018.

Justification: This amendment is proposed to align EMC requirements in line with Decision 2019/1326 published in August 2019, in support of 2014/30/EU. At Present, standard refers to both IS / ISO 13766-1 & IS/ISO 13766-2 for Electro Magnetic Compatibility (EMC). This leads to applicability of Higher severity levels (100V/m for Radiated Immunity). Decision 2019/1326 published in August 2019, in support of 2014/30/EU refers to only IS/ISO 13766-1 where severity levels is in line with latest Vehicle level EMC Regulation UN R10.6. Hence, it is proposed to delete IS/ISO 13766-2 from AIS 160.
